MedStar Georgetown
Transplant Institute

**Physicians, services,
and locations.**

**It's how we
treat people.**

As international leaders in kidney, liver, pancreas, and small bowel transplant medicine, we continuously strive to provide each patient with the highest quality care. We do that through many avenues—building and expanding our expert team of transplant specialists, pushing the frontiers of transplant medicine through research, and providing ground-breaking treatments delivered by experienced physicians who are committed to delivering life-changing, compassionate care to every patient.

MedStar Georgetown Transplant Institute offers the complete spectrum of care, from evaluation and medical management to cutting-edge surgery and transplant procedures for adults and children. The Transplant Institute is one of the highest volume organ transplant programs in the country and offers the expertise of some of the foremost U.S. transplant specialists. We have performed more than 10,500 liver, kidney, pancreas, small bowel, and multi-organ transplants.

With locations in Maryland, Virginia, and Washington, D.C., we offer your patients with end-stage organ disease expert care that is unmatched. I hope this directory will be a valuable resource for you when referring patients to the Transplant Institute.

Thomas M. Fishbein, MD

Executive Director

MedStar Georgetown Transplant Institute

As one of the highest volume transplant programs in the country, our specialists have more experience treating patients with end-stage organ disease.

MedStar Georgetown Transplant Institute services.

Our experienced, fellowship-trained specialists use their knowledge and advanced training to customize treatment plans for your patients. The services offered at the Transplant Institute, many of which are not available at any other program in the region, include:

- Allogeneic and autologous pancreatic islet transplantation
- Coordinated bariatric/transplant care
- Hepatopancreaticobiliary surgery
- Living and deceased donor kidney transplantation
- Living and deceased donor liver transplantation
- Multi-organ abdominal transplantation
- Pancreas transplantation
- Simultaneous kidney/pancreas transplantation
- Small bowel transplantation
- Transplant gastroenterology
- Transplant hepatology
- Transplant nephrology
- Transplant oncology

To refer a patient, call **202-444-3700** or visit **[MedStarHealth.org/Transplant](https://www.MedStarHealth.org/Transplant)**.
